

Curriculum Update 2020-21 Geography Department

On returning to school in September 2020, we embarked on a full Gap Analysis for all year groups to ascertain the breadth and depth of gaps resulting from the National Lockdown in the previous academic year.

We spent the first three weeks of the academic year assessing checking knowledge, skills and understanding for our subject. These skills and knowledge would be essential for future learning.

| | Gaps identified | Recovery plan from October |
|---------|--|-----------------------------------|
| Veen 7 | | 2020 |
| Year 7 | Basic geographical skills e.g. grid references | Embed these skills throughout |
| | and general mapwork | each unit of work. |
| Year 8 | Fieldwork – understanding the route to | This will be taught throughout |
| | enquiry. | Year 8 and 9 to give |
| | | foundational knowledge to the |
| | | fieldwork completed at GCSE |
| | | level. |
| Year 9 | Tectonic plate theory – volcanoes and | To teach Natural Hazards unit in |
| | earthquakes. | Term 4 instead of Look at it this |
| | | Way. There are more resources |
| | | available for students at home |
| | | for online learning for the NH |
| | | unit which will make it more |
| | | accessible for them. |
| Year 10 | A Warming World – climate change (causes | Weather Hazards and Climate |
| | and impacts). | Change also covers this unit in |
| | | more details. Additional key |
| | | word activities will be set to |
| | | concrete the students |
| | | understanding of the vocabulary |
| | | used. Glossary tests still set. |
| Year 11 | Weather Hazards and Climate Change and | This will be taught after Easter |
| | Ecosystems, Biodiversity and Management | once all Paper 1 and Paper 2 |
| | | content has been taught. Paper |
| | | 3 will be reduced and taught as |

Gap Analysis

| | an interwoven unit throughout |
|--|-------------------------------|
| | Year 10 and 11. |

From October until December 2020, we taught an adapted curriculum so that we could fill the gaps identified in the full gap analysis. The recovery plans that were put in place for short-term, medium-term and long-term planning, starting with the most urgent gaps in short term planning. The plans put in place aimed to

January 2021

From January 2021, the school is again closed to most children as a result of another National Lockdown. Although we are delivering all lessons live to children at home via the remote learning systems, we have made the following adaptations to planned curriculum to ensure that the lessons are translatable for those at home.

| | Adaptations to taught curriculum | Rationale |
|---------|---|--------------------------------|
| Year 7 | Specific Powerpoint layout for all lessons. | Students know what to expect |
| | Particular emphasis on key words and their | and are able to complete |
| | meaning. Same structure to each lesson. | activities in the time set to |
| | | boost their confidence. |
| Year 8 | Activities introduced in which researching can | Students are still interacting |
| | be integrated – e.g. the One Child Policy | with information to help them |
| | research. Diagrams and maps are sketched | learn. |
| | instead of classroom resources. | |
| Year 9 | Activities introduced in which researching can | Students are still interacting |
| | be integrated – e.g. the population of the world | with information to help them |
| | and where people live. Diagrams and maps are | learn. |
| | sketched instead of classroom resources. | |
| Year 10 | Weather Hazards and Climate Change – video | Gives students visuals of |
| | clips embedded into lessons. Extension activities | content being delivered. |
| | provided and work submitted after each lesson. | Stretch and challenge |
| | | throughout. |
| Year 11 | Global Development. Project work included for | Still a feeling of classroom |
| | case studies and verbal contributions on Teams | learning as most students |
| | as small class. | contribute well. |
