• InvestIN

As the summer approaches, it is a great time for students to start thinking about how they will be spending their holidays wisely. To get a head start on their futures, students can use this time to upskill and gain valuable experiences that will boost future applications. Parents can also be championing these preparations for success before, and throughout, the summer.

Join an online InvestIN evening event as they discuss:

1. The impact of the changing job market on the future of careers, identifying the shifts in key skills and qualities employers are looking for
2. A deep dive into desirable skills students can build over the summer and key practical takeaways to implement this
3. How InvestIN can support students through our ultimate work experience Summer Experiences, giving them the chance to learn from professionals and test-drive their dream career.
